# CAPABILITIES STATEMENT

## COMPANY OVERVIEW

Resilient Electric Inc. is a Disabled Veteran owned, hands-on, full-service electrical contracting firm specializing in commercial, industrial, and multi-site projects across Southern California. With 70 years of combined experience, our team delivers safe, efficient, and scalable electrical solutions that meet NEC/CEC requirements and exceed client expectations. As a certified DVBE and IBEW signatory contractor, we bring military-grade discipline, accountability, and resilience to every project – built on trust, safety, and long-term client partnerships.

## PAST PERFORMANCE

### Kaiser Permanente – Hospital Electrical Infrastructure Upgrade

Role: Prime Electrical Contractor

- Removed and replaced all panels and switchgear in an active hospital environment
- Assisted with design and installation of new fire alarm system
- Installed new power and controls for 13 large Air Handler units
- Executed proper pre-work planning for successful cutovers with minimal hospital downtime

**Cushman & Wakefield:** Large-scale commercial lighting upgrade program across multiple facilities.

**Link Logistics · Saddleback College · Inglewood Courthouse · G Line Metro:** Electrical contracting services for institutional, transit, and logistics facilities. 100% repeat business rate across all clients.

## CORE COMPETENCIES

### DVBE Compliance Partner

Help prime contractors and agencies meet mandatory DVBE participation requirements on state and federal projects.

### Active Hospital Expertise

Specialized in HCAI-regulated environments – stringent code compliance with zero-downtime cutover planning for occupied facilities.

### Full-Spectrum Electrical Capability

Unlike single-trade firms, we cover switchgear, fire alarm, HVAC controls, EV charging, generators, and lighting under one contract.

### 24/7 Emergency Service

Around-the-clock availability for critical facility needs, ensuring rapid response for urgent electrical issues.

### Design-Assist Delivery

In-house design, assisting, and project development from concept to commissioning.

## DIFFERENTIATORS

### Experienced Technical Support Team

We support projects with experienced professionals who assist in coordinating technical requirements and design-related needs from concept through completion

### 90 Years Combined Experience

Deep bench of seasoned professionals across HVAC, controls, and construction disciplines.

### Complete Design-Build Capability

We can help design your project and then install it—single-source accountability that reduces cost and schedule risk.

### Proven Quality & Reliability

Pre-startup testing protocols, formal project reporting, and on-time delivery with repeat business from satisfied clients.

### Client-Centric Service

Collaborative teams with our clients—delivering viable solutions built on trust and integrity.
